HUILIN SHEN

Product Designer | UI/UX

PORTFOLIO **www.huilinshen.com**

London, UK · +44 7419 206893 · huilinshen1109@gmail.com · linkedin.com/in/huilinshen
UK right to work — no sponsorship required

Product Designer combining user research, UI/UX design and systems thinking to create intuitive experiences across digital products and AI interfaces. Led Huawei's flagship Generative UI concept to HQ-level buy-in and received Huawei London's Best Individual Contribution Award.

EXPERIENCE

Product Designer | Huawei Technologies R&D (UK) Ltd | London

Oct 2025 – **Jul 2026**

Team Assistant — **May 2025** – Oct 2025

Joined the London HMI team as its first and sole designer and was promoted to Product Designer within five months, leading UI/UX design across new product concepts and existing app updates.

Generative UI & Design System

- Led end-to-end UX/UI design for an AI-native smartwatch concept, translating requirements and user research into journeys, high-fidelity interfaces and an interactive MVP with engineers.
- Built a reusable Figma design system and defined AI feedback patterns, interaction states and components, refining the experience through internal usability testing.
- Presented prototypes to Huawei HMI HQ and the European Research Institute, securing stakeholder buy-in, additional project funding and AI/ML headcount.

Huawei Calendar

- Researched users' planning needs and designed a colour-coded event system with personalised scheduling recommendations based on circadian rhythms and energy levels. Huawei HQ adopted the proposal for a future Calendar update.

Celia AI

- Designed contextual UI for AI-generated call summaries and suggested follow-up actions, contributing to a released feature that identifies user intent in call transcripts and reveals relevant actions on tap.

UI/UX Design Intern | Illuminera, an IQVIA business | Shanghai

Jan – Jun 2023

- Designed UI for two internal research and data-analysis platforms, defining information architecture and user flows, creating reusable UI components, and maintaining design systems to ensure consistency and support developer handoff.

UI Design Intern | GoodMatter Design Studio | Shanghai

Jan – Sep 2020

- Designed the Skyline interface for FOTILE's A1.i range hood, commercially launched in 2021. The product received an iF Design Award and Gold at the 2022 China Excellent Industrial Design Awards.

INDEPENDENT PROJECT

AI-Assisted Web Development & Creative Prototyping

Independently designed and built my portfolio from Figma designs with AI-assisted front-end development using Claude Code and Codex. Explored interactive 3D visuals, AI-assisted 3D modelling and rapid creative prototyping. Used Git/GitHub for version control and deployed the site on Vercel.

EDUCATION

MDes Interaction Design, Merit | University of Glasgow & Glasgow School of Art — 2023–2024

BSc Industrial Design | University of Shanghai for Science and Technology — 2019–2023

SKILLS

Design: User research, usability testing, user journeys, information architecture, UI/UX design, interaction and motion design, design systems, prototyping, developer handoff

Tools: Figma, FigJam, Photoshop, Illustrator, After Effects, Rhino, KeyShot

AI & Development: Claude Code, Codex, AI-assisted prototyping, HTML/CSS, basic JavaScript, Git/GitHub, Vercel

Languages: Mandarin Chinese (native), English (fluent)
